

FireGuard® Media Safes

SCHWAB MEDIA SAFES - FIRE, EXPLOSION & IMPACT RATED

Once you've made the wise decision to protect your business with fire resistant storage, why settle for less than the best! Since 1872 Schwab Corp. has been the leader in protecting the valuable records of businesses and residential customers world-wide. All Schwab Fire and Impact Rated Media Safes come backed by Underwriters' Laboratories Class 125-1 hour, fire and impact resistance label.

Our Media Safes, provide maximum filing capacity for your valuable records. While equipped standard with a Group 2 Combination lock, a variety of locking options are available to accommodate your individual security needs.

The Schwab Media Safe is available in 3 models, with five attractive colors to choose from. Or we can special mix a color that will enhance any office or home office décor.

While paper records can withstand temperatures to 350°F, computer media is damaged beyond use by temperatures above 125°F and 80% humidity. Microfiche, film and computer media require the added protection that a Schwab media safe offers.

Media safes can be configured in a variety of ways to meet your specific storage needs. For your added convenience, these accessories can be easily changed as storage requirements evolve.

Rated to protect your vital business records and computer media, Schwab Fire and Impact Rated Media Safes have been built to exceed the stringent UL label requirements for the following tests:

A one hour test for fire resistance in external temperatures exceeding 1700°F.

A 30 foot drop impact-resistance test in addition to a 1550°F fire resistance test.

A 2000°F explosion hazard resistance test.

All Schwab Fire and Impact Rated Media Safes are UL rated to survive a fall of over 30 feet and still keep their contents safe from fire. Combined with the explosion hazard UL rating, these tests prove that the Schwab safe is built to protect in the face of any disaster.

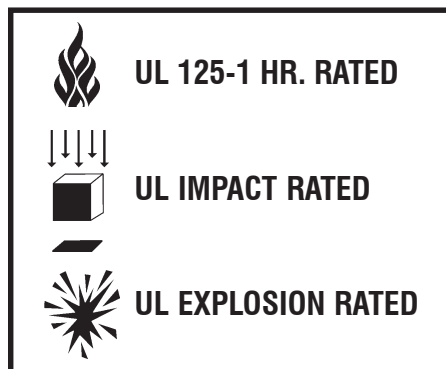

Schwab's Insulite™ insulation is the most efficient on the market today. Thicker insulation doesn't always mean better insulation. Insulite™ allows all Schwab safes to offer features like

thinner walls and lighter weight without compromising fire protection. This enables the Schwab design to maintain a look that is aesthetically pleasing without sacrificing its protective ability.

All fire resistant insulation requires water in order to prevent the spread of fire. Insulite™, Schwab's trademarked air-dried insulating composite's water is chemically bound. This means our insulation contains *no free water*. The competitor's oven dried insulation has a small amount of free water, which can evaporate over time, thus losing its protective ability. Insulite™ contains no asbestos and NEVER dries out or loses its protective ability over time, so breathe easy—you, your vital records, and your environment are protected with a Schwab fire resistant media safe.

IT'S OUR GUARANTEE

Our after-the-fire free replacement guarantee lets you know that once you have made the investment in a Schwab safe, we will be there even if disaster strikes. We stand behind it, and have for over a century.

SCHWAB[®]

MEDIA SAFES

Fire, Impact and Explosion Rating

The Schwab Media Safe has met Underwriters' Laboratories stringent requirements for the classification of 'Record Protection Equipment.' This includes a test for fire-resistance in external temperatures exceeding 1700°F for one hour, a 2000°F explosion hazard test as well as a test to withstand the impact of a 30ft drop.

Insulation

Only Schwab's premium Insulite™ insulating composite material, in

conjunction with superior manufacturing processes provides unparalleled protection against fire. Insulite, which is poured into the pre-constructed frame enables the Schwab design to maintain the same protection with less weight and size than competing brands.

Colors

Schwab's five standard colors have been carefully chosen to meet the discriminating tastes of the world's top designers and decorators:

Gray
Charcoal
Off-White
Tan
Putty

They can also be made available in a special color that you specify.

An attractive textured finish gives the Schwab cabinet a scratch, scuff and stain resistant surface.

Lifetime Warranty

Schwab warrants that it will repair or replace any safe part manufactured by Schwab that fails in normal use as a result of defects in materials or workmanship free of charge for a period of 3 years as long as the original registered purchaser owns the safe.

Lifetime Free After-the-Fire Replacement Warranty

In the event this safe is damaged by fire while in the possession of the original purchaser as shown on the warranty registration card, Schwab warrants that it will replace the product free of charge.

Schwab media safes come without interior options so that you may customize yours from our complete line of accessories.

Just as no two businesses are alike, neither are their record and data storage requirements. At Schwab, we've developed a complete line of accessories to meet those varied needs.

Most customers prefer our Pull-Out Multimedia Drawer as it offers the greatest amount of interior storage space, however storage racks, roll-out shelves and a variety of trays can be used to customize your safe to your individual storage requirements. Please refer to Schwab's 2005 Retail Price List or our Product Literature for our complete line of available accessories.
